

Has your cancer affected your sexuality?

Living with cancer can affect sexual functioning in various ways – some of these effects may be due to the Cancer itself or the treatment you are having.

Sexuality counseling may help you and your partner deal with this.

CancerCare Manitoba is now offering sexuality information and counseling (by appointment).

For an appointment with a qualified counselor, please call

**Dr. Anne Katz at
204-787-4495.**

Appointments will be available at the MacCharles Unit.
